

G4ME

NEW!

An all-in-one device for your needs today, expandable for your needs tomorrow.

The G4 provides global, real-time tracking and two-way messaging all in one device. There is a migration path from basic tracking and communication to more advanced capabilities without the need to be replaced. Utilizing Iridium's latest 9603N modem assures reliable world-wide communications on the current and next generation satellite system. Text messages are sent in real-time and viewed via any smartphone or tablet combined with our new Guardian Connect App. The G4 is an AFF (Automated Flight Following) certified solution.

KEY FEATURES

Tracking - AFF Certified

Provisioned for future requirements without replacing the device.

Two-Way Text

Convenient communication with dispatch.

Guardian Connect App

Bluetooth connectivity with any smartphone or tablet for two-way text messaging, diagnostics and more.
